DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-21, drawn to a method for the analysis of a sample, classified in class 435, subclass 6.
 - II. Claims 22-43, drawn to a method for selective adherence and detection of analytes, classified in class 427, subclass 8.
 - III. Claims 44-65, drawn to a method for analyzing a chemical reaction, classified in class 436, subclass 164.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of group I-III are unrelated and independent inventions. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions as claimed have different effects. The feature of analyzing said sample by a detection means of group I is not required by the claims of the other groups. The feature of selectively removing non-adherent analytes of group II is not required by the claims of the other groups. The feature of allowing a chemical reaction to occur of group III is not required by the claims of the other groups.

Art Unit: 1641

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
